KEEP THE LIGHTS ON ! NO HEAT OR ELECTRICITY CUTOFFS!

☑ We the undersigned support the call by Justice First demanding no shutoffs of heat and electricity for the people of the D.C. metro area. We call for a rollback in gas and electric rates, which were raised several months ago to increase profits for utility giants. Heat and light are a right! Instead of giving trillions of tax dollars to the banks and corporations that created this economic crisis, everyone should have the right to heat and light!
